PRINT TEMPLATE GUIDE

Frameless Frames

Frame Size/Visual Opening (black line) ▬▬

The visual area after installation is the same as the frame size.

Bleed/File Size (red line) ——

The total size of printed material is frame size + 5" of bleed on all sides. *DO NOT design any critical elements (text, logos, etc.) within the bleed area!*

Finished Size (blue line) ——

The print is finished with bead sewn into pockets on all 4 sides, with the final size being frame + 2" all around.

Safety Area (dotted grey line) – — — —

The safety margin for important text and images is frame size - 4" all around. This is just a suggestion, feel free to colour outside the lines with the awareness that whatever ends up outside this margin might get cut-off or distorted.
